Re: Request for a meeting by Lee Petillon, Rev. Hill and Cal Burton
at the offices of Gipson Hoffman & Pancione, Law Firm.

Dear Norm :

I want to thank you for your letter of January 6, 1993 in response to Community Brace's desire to move forward with the assistance of National Minority and Trinity Broadcasting Network corporations. In the interim we have discussed and reviewed the areas of concern outlined in your letter of January 6, 1993 with various state, federal, local, church officials C.P.A's and the law firm of Gipson Hoffman & Pancione, partner Lee Petillon, Esq. It was determined that the concerns you outlined are correct, in varying degrees as the Specialized Small Business Investment Company's proposal is presently structured as opposed to the original proposal. In discussing this matter with Attorney Petillon, he and his partners reviewed several approaches, which, if acceptable to TBN/NMT could be presented to the Small Business Administration, all of which adhere to strict legal and financial guidelines. Due to nature of the subject and the complexity of the matter, it will require an in person meeting. In the interest of all of our communities; I trust that you will agree to a meeting with the individuals noted above at your earliest convenience.

As I indicated above, during the interim time it was productive as noted and I also had an opportunity, to view several of your programs on Trinity Broadcasting Network. I was not only impressed, but engulfed with the spirit of Christ, which enhanced my determination to assist Rev. E. V. Hill in his Christian commitment to the African American community of Los Angeles and the country, also Africa, Panama, Honduras and Haiti.

On January 5, 1993 at midnight, I watched your remote from Russia. A country of over 300 Million people, with persons telling you that the average salary is 760 Rubles and that some want to return to the old ways. During Paul Crouch's prayer in Red Square for the Russian people he said that, he said that the gospel, food and clothing would be brought to Russia by TBN and asked that TBN might carry the message of change and Christ to the people of Russia in time! The Russian interpreter, told Paul that the people of Russia want to overcome poverty- and do not want to be under the current government! Paul then read John Chapter 9; about over coming adversary; he added that it is hard to present an argument to people who are hungry and poor.

In a section of the programming concerning TBN's request for Christian tv programs to be carried and aired on cable stations; Paul prayed for an " INTERSESSION ". He indicated that over 26 Million people watch TBN and that he would pray for an " INTERSESSION " and that he is requesting all the viewers of TBN to write their Representatives in the U.S. Congress to pass the bill over the President's veto. It is my understanding that the bill passed!

I enjoyed the programs so much that on January 26, 1993 I was fortunate to witness Christian testimony of Tony Hill, former ALL-PRO NFL wide receiver of the Dallas Cowboys and Rev. Gordon Banks former, Dallas Cowboys running back; who is now the Cowboys team minister. An excellent interview and one which had definite cross over appeal into the African American community. A very good job by Rev. Del Way and his wife Sidney from Dallas.

Rev. Monoro Myles sermon from Florida on January 26, 1993 at 7p.m. on TBN out of Miami was most inspiring. "Potential and Purpose " What ever God demands of you; you can do. Don't let your dreams drop on the garbage heap of life! Put you life on the right level." The Right Attitude." In addition to areas noted Rev. Monoro Myles sermon concluded with ; THE CHURCH NEEDS TO MOVE FROM THE PLAYGROUND TO THE BATTLE GROUNDS; and ALL THINGS ARE POSSIBLE THRU GOD! "

Ms. Shirley Caesar, world renowned gospel singer and evangelist, recipient of more Grammy Awards than most today, brings to the TBN family yet a new and exciting dimension of African American Christian Gospel Music which will only serve to enhance the viewer ship of the Trinity Broadcasting Network. The February 7, 1993 9:30 p.m. broadcast from the American Music Theatre in Nashville, Tenn, will result in a regular appearance by Ms. Caesar and it good of Paul and Jan Crouch to afford Ms. Caesar an opportunity to make an announcement regarding her church revival, at Mt. Calvary Church, Raleigh, North Carolina after her singing performance.

Rev. Edward V. Hill's outstanding sermon from Houston, with the backdrop of flags from all over the world is destined to be classified as one of the all time classic Christian Gospel sermons. The way in which he wearily weaves the Christian sermon via personal, human and the business experience is a joy to behold. Many of the African Americans who do not normally watch TBN expressed their interest in watching the programs in the future; in a large part due to the expressed specific program mix of African American Artists, Athletes and Minister TBN is providing to the community who are teaching and enlightening to the Community. I am certain that African Americans have been contributing financially to the support of the TBN Broadcast Ministry as your ratings, market share and demographic would demonstrate; with the increase in African Americans of the above caliber additional viewers and financial support will also increase from the African American and the larger public sector due to increased interest. Ms. Caesar and Rev. Edward V. Hill are both cross-over public figures at present others will follow.

The reason I make the points noted above is to underscore the need to put in place the proper financial business vehicle to act as a conduit and responded to requests of Trinity Broadcasting /National Minority Televisions community involvements financially, in the United States. The support by TBN/NMT of a Specialized Small Business Investment Company thru the Small Business Administration will have the full support of the present Administration state of Ca and the Los Angeles Urban League support, coupled with legal representation by the Century City Law firm of Gipson Hoffman & Pancione; will ensure legal and financial fiduciary concerns are resolved during the revision of the new proposal to SBA and Trinity Broadcasting/National Minority Television. By copy of this letter to Paul Crouch we are requesting that an opportunity to review a new plan of action to resolve the issues raised in your letter of January 6, 1993; on behalf of Rev. Edward V. Hill. Thank you in advance for all consideration given this matter; we pray for " INTERSESSION."

Sincerely,

Cal E. Burton
